

Make Newton Power Choice Green

The Newton Coalition for Climate Action strongly supports adding 40% NE Class I renewable energy to the Newton Power Choice Standard Plan for a total of 53% (includes the 13% State mandate).

Show your support by signing our letter:

Fighting Climate Change is Good for:

- Our Health: to prevent disease
- Our Economy: to create jobs; keep \$20B in State
- The Planet: to slow global warming; comply with Paris Accord
- Our CHILDREN: to give them a sustainable future

Why 40% More?

- Easiest, fastest way to address global warming
- Eliminates emissions equal to 10,000 cars
- Encourages other MA cities to 'go green'
- Most people stick with the Standard Plan

Survey Shows Strong Support for 40%

Green Newton recently conducted a public, zip-code based, random Newton resident survey and found:
86% are willing to pay more for 'green' electricity
77% of those willing to pay more are willing to pay for at least 40% more and many up to 100%.

Build Even More Support for 40%

- Email your friends
- Host a house party
- Gather signatures
- Call/email your Councilors and Mayor Fuller

What Will it Cost for 40% More Renewable Electricity?

Typical Newton households with a \$100/month bill, will pay about \$5 extra per month, for the 40% more Standard Plan.

Average Monthly Electric Bill	Estimated Cost of 40% More
\$60	\$3
\$90	\$5
\$150	\$8
\$195	\$10
\$225	\$12
\$270	\$14

Many Newton residents can ultimately save money by decreasing their energy use. Visit our website for energy-saving, money-saving ideas.

Newton Power Choice has Options for Everyone:

Standard Plan: (Percent of renewables to be decided by the Mayor this fall. Eversource Basic customers will automatically be enrolled).

Opt Up: **Choose 100% Renewable Electricity**

Opt Down: Receive no extra renewables (still get 13% State minimum)

Opt Out: Negotiate your own contract or stay with Eversource Basic

No fees or penalties ever for leaving NPC or opting up or down
